Message

The speed of the technological advancements and upgradations is the highest in this century which has been acclaimed as century of knowledge. To synchronize with this fastest pace of the century to remain acquainted and updated with the latest trends and technologies has become essential in every sphere of the life. Adopting the innovative approach and to get involved in the proactive practices, is becoming the essential part in all the areas of the life.

It is heartening to note that **SAL Institute of Technology and Engineering Research** is getting entered the name in Limca Book of Records by filing 101 patents in a single day, which deserves sincere appreciation. Entering of the name, in Book of World Amazing Record with 700 paper-presentations in a single day is also another great achievement of the institute, deserves to be admired.

I convey my warm greetings to **SAL Institute of Technology and Engineering Research** for the outstanding achievements and extend my best wishes for all the success.

(Narendra Modi)

To,
Dr. Rupesh P. Vasani, Director,
SAL Institute of Technology &
Engineering Research,
Opp. Science City, Village Bhadaj,
Ahmedabad-380060.

LETTER OF APPRECIATION

I, Bhupendrasinh Chudasama, Education Minister, Gujarat State, feel proud to acknowledge the team Tech IO (Hetang Bhavsar, Anushka Shah, Tatva Shah, Aayushi Morabiya, Rushil Shah, Rudraksh Jani and mentors: Asst. Prof. Kaushal Jani and Asst. Prof. Akash Bhatt) from SAL Education Campus, Ahmedabad to represent their institute at Smart India Hackathon, 2018 held at C.V. Raman college of Engineering, Bhubaneswar, Odisha. They performed note-worthy and developed a solution for the Ministry of Skill Development and Entrepreneurship. They developed a single platform for a business incubator (Simple Startup Support, S3) which would help all the innovators to access all the facilities on one platform. At present, this system has been implemented on the portal of the institute and may be used later by the ministry after proper testing. Entrepreneurs can directly access this portal/website for all the purposes including funding, mentorship, doubt solving, incubation centers, etc. It is aimed at creating a platform for harnessing the creativity and technical expertise of Indian students for direct benefit of the country.

Students like you bring pride to the institute, city as well as our nation. I congratulate you on your success and wish you all the best for your bright future.

(Bhupendrasinh chudasama)

To,
The Principal,
SAL Engineering And Technical Institute,
SAL Education Campus, Ahmedabad.

Vision & Mission

Vision

SAL Education envisions to become an Eminent Centre of learning in the country by developing and creating professionals with an amalgamation of a global mindset, Indian ethos, good values and professional as well as technical skills.

Mission

SAL Education is committed to the complete development of the students by enabling them to imbibe professional ethics and social commitments so that they can emerge as competent professionals to meet the global challenges. We prepare leaders of outstanding character who will contribute significantly to their fields of study and practice. SAL Education catalyzes students to mature into critical thinkers who are analytically equipped, practically oriented and ethically driven. It aims to contribute to creating a better future by developing socially responsible individuals. We are dedicated to providing education that combines rigorous academic study and the excitement of discovery with the support and intellectual stimulation of a diverse campus community.

Message From the Trendsetter

Message from the Chairman

The world of academia has shifted gears and has completely taken in the benefits of technology and knowledge, as the global economy has made countries into borderless entities. SAL Education campus today has metamorphosed into the finest education institution with noteworthy national and international visibility. With our primary domain residing in the field of Engineering, Pharmacy, Management and Architecture, we aim to have a significant international impact and strong local commitment by providing quality education. Our campus continually works towards navigating our students in the direction of corporate world as well as research by providing them with a sound academic foundation, competent faculty and industrial exposure. Our students stand apart by their ability to marshal a broad range of resources, drive collaborative efforts and deliver breakthrough results.

In the industrial market, there is a growing need for professionals who overcome tough challenges and create opportunities in uncharted areas with unprecedented success by thinking innovatively. Our campus moulds our students with this very expectation at hand and motivates them to sharpen intellectual pursuits.

I am confident that our enshrined goals can be collectively achieved through scholarly collaboration with reputed and competent professionals.

We continue to progress towards making our educational programs and facilities the best that they can be.

I invite you to explore further and experience the difference that is SAL Education.

Dr. Rajendra Shah
Chairman, SAL Group

Know About SAL Education

Evolution of SAL Education

SAL Education is a value-driven, research-oriented and student-friendly campus that was established by Adarsh Foundation in the year 2009. Adarsh Foundation was founded in the year 1993 by eminent personalities from different walks of life to provide quality education. A well-known industrialist and brand icon in the medical sector, Dr. Rajendra Shah, has patronized the Trust.

The institute's journey started with the establishment of SAL Institute of Technology and Engineering Research and SAL Institute of Pharmacy in the year 2009. Subsequently, several institutes were added which include SAL Institute of Management (2010), SAL College of Engineering (2012), SAL Engineering and Technical Institute (2014), SAL School of Architecture (2014) and SAL Institute of Diploma Studies (2019).

After more than a decade, SAL Education has progressed into an educational campus par excellence by having institutes focusing on various fields like Engineering, Pharmacy, Management, Architecture and Diploma in Engineering. The courses are highly regarded by the Indian corporate and student community. We have built a strong academic foundation by bringing together experts and faculty that cater to diverse academic interests.

SAL Education provides the students with the right tools to further their research interests and by bringing them in collaboration with the experts in the field, we hope to push their aspirations and help the students achieve their goals.

Recognition & Affiliation

SAL Education Institutes are recognized and approved by major councils related to education and the Government. The Institutes are also associated with major educational societies and Government bodies.

International Partnerships & Programmes

SAL Education strongly believes that international collaborations, tie-ups, and projects can build a community that can facilitate outstanding ideas. SAL Education has collaborated with various reputed universities and institutes worldwide, which provide opportunities to the students and the faculties for exchange of knowledge between the universities and the institutes.

SAL Education has tie-ups with many universities, institutes, and research centres for student exchange, faculty development programmes, educational tours for students, and much more. It has collaborated with many international programmes and projects. SAL Education has participated in many projects under the Erasmus+ Programme.

Erasmus+

SAL Education has participated and completed the project “Establishment of Capacity Building Centre as a Sustainable Solution to raise the teaching staff’s standards in Indian Higher Education Institutes” (CABCIN) under the Erasmus+ Programme.

CABCIN, a European funded project’s main objective is to strengthen the capacity and quality of teaching at Higher Education Institutes in India by establishing a Capacity Building Centre (CBC) at each Indian university. SAL Education, under the CABCIN project, has launched the SAL Training and Refinement Centre.

It is also a part of the project “Developing tailored, comprehensive services for young migrants” (INTEGRA) under the Erasmus+ Programme. All the projects under the Erasmus+ Programme are co-funded by the European Union.

International Tie-ups & Partnerships

Why Choose SAL Education

Recognition

SAL Institute of Technology and Engineering Research has been Diamond-rated for Teaching & Learning & Entrepreneurship and Gold rated for Employability (Placement) and Facilities by QS-I-GAUGE. QS World University Rankings is an annual publication of university rankings by Quacquarelli Symonds. QS-ERA has framed the QS I-GAUGE Indian university and college rating.

Serene & Green Environment

SAL Education campus, located in Ahmedabad, opposite the famous Science City, offers an ideal study ambiance as it is surrounded by a serene environment. The campus boasts of elegant lawns dotted with exquisite flowers and trees. We believe that any form of education requires a clean and natural environment to bring out the best in students.

Global Exposure

SAL Education has signed MoUs and partnered with a host of other universities and institutions for faculty & student exchange programs and faculty development programs. We believe that a cultural and intellectual exchange at the global level will allow the students to enrich and diversify their degree with an overseas study experience. Students also get international and national exposure for their research projects and industrial internships.

Programs

The institute's programs at the SAL Education include practical and contemporary knowledge, which correlates with the corporate scenario. This makes the knowledge received at the institute level, relevant and brings more contexts to the students when they start becoming a part of the corporate world.

Learning Spaces

The vibrant campus provides spacious seminar halls, auditoriums, conference rooms, well-sourced libraries and modern and smart classrooms, as well as an education ecosystem adequately supported by an advanced and integrated technology infrastructure.

Activity-Based Experiential Learning

An interesting component of our learning curve is that we encourage our students for experiential and experimental learning through various periodic events and co-curricular activities.

Counselling Centre

A step taken towards mental health, SAL Education provides a dedicated counselling Centre for meeting its students' academic, social-psychological and emotional needs. This is one of the most important services that we offer to our students, recognizing the stress that they are going through and always making sure that if they need help, they can seek it from the professionals within the Institute.

Dedicated Placement Team

SAL Education provides a dedicated placement team that offers assistance for enabling 100% offers for the students. With our growing relations with industry experts, we offer quality placements to our students.

Academic Experts

SAL Education provides a dedicated team of enthusiastic and motivated faculty, with vast experience for imparting quality education to the students. Many of our faculty members have done their Doctorate (PhD) from reputed institutes all over the world.

Mentor Faculty

To ensure that each student benefits out of the program and does not get lost in the chaos, SAL Education provides a mentor faculty for each group of limited students to understand their academic or non-academic problems, solve them, and make them comfortable pursuing study.

Soft & Technical Skill Training

SAL Education provides soft and technical skill development sessions for the students. This goes well in tandem with the academic and co-curricular activities, to contribute to the students' personal growth.

Advanced Laboratories

The vibrant campus provides advanced and well-equipped laboratories with state-of-the-art equipment, hardware, software and teaching aids to test and implement theoretical learning taught in the class. We want the students to experience innovative things, by making sure they do not miss out on the technological infrastructure.

Multidisciplinary Campus

SAL Education has grown into a distinguished campus, offering Diploma, Undergraduate and Postgraduate programs across seven Institutes in various disciplines like Engineering, Pharmacy, Management and Architecture. The students are exposed to faculty and people from across disciplines and this brings diversity in the level of education.

Industrial Interaction

Industry interaction is encouraged through expert lectures by technocrats, architects and industry stalwarts, discussions, seminars, project assignments and visits to industries and project sites. We also organize various workshops and Architecture study trips/visits for the students to experience on field expertise.

An Integrated Campus With Multiple Institutes

SAL Education has many institutes, providing Diploma, Undergraduate, and Postgraduate Programs. Each institute has its institutional character and guiding vision unique to its goals and discipline. Yet, there is a collective spirit that drives all the institutes to ensure organic learning and exchange, to develop an innovative solution to prevent present-day problems.

Institutes

SAL Institute of Technology and Engineering Research (Est. Yr. 2009)

SAL Institute of Technology & Engineering Research, a Constituent of SAL Education, is a Self-Financed Institute of Engineering, approved by the All India Council for Technical Education (AICTE), New Delhi, Government of Gujarat. It started from the academic year 2009-2010. The institute is affiliated with the Gujarat Technological University.

SAL Institute of Technology and Engineering Research is a place where tranquillity acquires a new dimension. Modern architecture blends with traditional values to heighten the spirit of continuous learning. All infrastructural facilities, including classrooms and discussion rooms, are well equipped with modern gadgets. Library, Workshop, Laboratories, Computer Centre, Canteen, Playgrounds, and much more are available on the campus.

The institute offers Bachelor of Engineering (B.E.) and Master of Engineering (M.E.) programs.

SAL Institute of Pharmacy (Est. Yr. 2009)

SAL Institute of Pharmacy, established in June 2009, is providing education and practical training in the field of Pharmacy. It is affiliated with the Gujarat Technological University.

The institute offers its students many curricular and extra-curricular activities, including international conferences and conventions, competitions, industry-relevant programs, and cultural activities. SAL Institute of Pharmacy is approved by the All India Council for Technical Education (AICTE) and Pharmacy Council of India (PCI). The institute provides technical knowledge and also nourishes all the students with the skills to withstand in all kinds of diverse situations. The institute offers a Bachelor of Pharmacy (B.Pharm.) degree and Doctor of Pharmacy (Pharm.D) degree Programs in pharmacy education.

SAL Institute of Management (Est. Yr. 2010)

SAL Institute of Management is approved by the All India Council for Technical Education, New Delhi and affiliated with the Gujarat Technological University. The Institute differentiates itself from other leading Management Institutes, on four fronts.

- 1) An industry-focused curriculum (that allows students to not just learn theoretical concepts, but understand the workings of the actual world).
- 2) Student-driven activities (that incorporates a great deal of ownership among the students and helps them to build confidence).
- 3) Corporate interface (that keeps the students constantly in touch with the corporate world).
- 4) Global exposure (Keeping the student in the reality of the global world and how management works worldwide)

The Institute students have a deep understanding of being independent in an environment of "interdependence." The institute started from the academic year 2010 and offered the Master of Business Administration Programme with specialisations in Human Resource, Marketing and Finance. The institute has continuously raised the bar for Management Education in Gujarat, through a formidable combination of academic activities and practical industrial exposure. This unique combination ensures that students acquired a strong theoretical basis combined with a pragmatic view of the theory's relevance to current industrial practices.

Various stalwarts from the academic and the corporate world support the institute.

SAL College of Engineering (Est. Yr. 2012)

SAL College of Engineering, established in the year 2012, is affiliated with the Gujarat Technological University, Ahmedabad and approved by All India Council for Technical Education, New Delhi. The institute offers Bachelor of Engineering (B.E.) and Masters of Engineering (M.E.) Programs in engineering education. We aim to add to the diverse and commendable knowledge in the engineering field and set up a strong base for future engineers.

SAL Engineering and Technical Institute (Est. Yr. 2014)

SAL Engineering and Technical Institute was established in the academic year 2014. The Institute is approved by All India Council for Technical Education, New Delhi and is affiliated with Gujarat Technological University (GTU). The institute offers Bachelor of Engineering (B.E.) Programs.

SAL School of Architecture (Est. Yr. 2014)

SAL School of Architecture is situated in the rapidly growing artistic city of Ahmedabad. The School of Architecture stands apart by the studio's vibrant ambience, which offers students a lush green and a unique rousing environment in which the students study Architecture. The School focuses on producing creative and innovative output and is one of the nation's best upcoming architecture schools, offering undergraduate and postgraduate courses.

We have brought together a new scheme of the learning curve, where the faculty members (renowned architects) work with the students in a fluid and non-hierarchical way to re-determine assumptions and designs and to explore and test the limit of structural architecture.

The School's learning course emphasizes on developing a proficient number of potential architects, with the help of studios-rooms and laboratories. The course in the Discipline of Architecture offers an opportunity to explore both practice and theory to the fullest with critical thinking.

The School offers a Bachelor of Architecture (B.Arch.) Program and Masters of Architecture Program in Interior Architecture (M.Arch.). All the architecture courses are affiliated with Gujarat Technological University and the Council of Architecture has approved the SAL School of Architecture.

SAL Institute of Diploma Studies (Est. Yr. 2019)

SAL Institute of Diploma Studies started in 2019 and provides diploma studies in Computer Engineering and Information & Technology Engineering. The Institute is established to impart practical and technical skills among the youth.

After completing a diploma in an engineering course, students can either continue further engineering studies at the undergraduate level or get employment in their respective disciplines. The Institute has well-equipped laboratories for providing hands-on training for the students. Any student can apply for Diploma Engineering after the 10th grade. The courses are affiliated with Gujarat Technological University and the Institute holds approval from All India Council for Technical Education, New Delhi.

Courses Offered

SAL Institute of Technology & Engineering Research

Bachelor of Engineering (B.E.)

- Automobile Engineering
- Civil Engineering
- Computer Engineering
- Computer Science Engineering
- Electronics and Communication Engineering
- Electrical Engineering
- Instrumental and Control Engineering
- Information Communication and Technology Engineering
- Mechanical Engineering

Master of Engineering (M.E.)

- Civil Engineering – Structure
- Computer Engineering – Software
- Electronics and Communication Engineering-Communication System
- Mechanical Engineering – Thermal

SAL Institute of Pharmacy

Bachelor of Pharmacy (B. Pharm)
Doctor of Pharmacy (Pharm.D)

SAL Institute of Management

Master of Business Administration (MBA)

- Finance
- Human Resource
- Marketing

SAL College of Engineering

Bachelor of Engineering (B.E.)

- Computer Engineering
- Chemical Engineering
- Information Communication and Technology Engineering
- Information Technology Engineering
- Mechanical Engineering
- Mechatronics Engineering

Master of Engineering (M.E.)

- Mechanical Engineering – Machine Design

SAL Engineering & Technical Institute

Bachelor of Engineering (B.E.)

- Computer Engineering
- Computer Science Engineering
- Information Communication and Technology Engineering
- Information Technology Engineering

SAL School of Architecture

Bachelor of Architecture (B. Arch)
Master of Architecture - Interior Architecture (M. Arch)

SAL Institute of Diploma Studies

Diploma in Engineering

- Computer Engineering
- Information Technology Engineering

Illustrious Faculty

An ever-expanding group of 300 and more faculties, a mix of industry, academics, and research experience, guides students in their quest for knowledge and skills acquisitions. Many of our campus faculties possess a Ph.D. degree. We conduct yearly campus drives for faculty selection from top institutes of the country. SAL Education is very aggressive in the research area. We encourage our faculty to participate in national and international seminars and get their papers published in the leading academic journals.

- There are 300+ expert faculties with a rich and diverse background.
- There are many faculties with experience in foreign universities.
- The campus provides a comprehensive policy for faculties pursuing Ph.D. and Post Doctoral Research.
- All faculty members are involved in at least one area of research.
- Mentor program for students, each faculty mentor mentors 20 students.
- The campus provides opportunities for the faculties to participate in national and international faculty development programs.

BRIGHT MINDS TO MENTOR THE BEST BRAINS

Extraordinary Centres

SAL Incubation & Research Centre

The Centre aims to promote entrepreneurship drive among the students of SAL Education. It provides all the essential infrastructural support that is required for all the Programs offered in the Institute, i.e. office space, meeting rooms, a platform to do networking, management assistance and other support services. It offers resources and mentoring to set up and manage ventures through various activities, including workshops and entrepreneurship training.

Objectives of the Centre

- To inculcate a culture of innovation and entrepreneurial spirit on the campus through various activities and campaigns.
- To nurture potential ideas through proof-of-concept and business ideation.
- To train the students to use their talents to turn opportunities into reality.
- To offer training for entrepreneurial success.

Higher Education & Professional Centre

The Higher Education and International Academic Professional Centre at SAL Education helps and guides the students in their higher education.

The Cell provides students with services like

- Advice on higher education.
- Advice on the international application procedure.
- General counselling and advice.
- Guiding the students in selecting the right course and university for their further higher foreign education.

Centre for International Relations

Collaboration between like-minded partners in academics significantly augments teaching quality and gives students an ideal platform to rise. Moreover, active international partnerships provide exciting opportunities for faculty members and students and offer an environment for high-quality research.

The SAL Education 'Centre of International Relationship' promotes partnerships with leading institutions worldwide to facilitate student and faculty exchange, research collaboration and cross-cultural learning.

The Centre designs numerous activities to promote, create and fortify the international tie-ups for exchange programs and research co-operation between SAL Education and other institutions and industry based on equality and mutual benefit.

The chief activities of the centre are:

- Initiating talks & establishing relations with international academic and research institutions and similar bodies.
- To provide opportunities for student exchange, faculty exchange, joint research and innovation.
- Provide opportunities for Internship and participation in the summer-winter programs for the students.
- Internship for the students in the international industry and corporates.
- Helps SAL Education participate in many International Programs.

SAL Training & Refinement Centre

Under the Erasmus+ CABCIN Project SAL Education has developed SAL Training and Refinement Centre.

Through this Centre, the trainers trained and certified under the 'Train the Trainers' program in the CABCIN project have developed a course and are further training more teachers and fulfilling CABCIN vision of improving the quality of education at Indian Higher Education Institutes.

Premium Infrastructure Facilities

SAL Education provides the latest technology and learning tools such as modern classrooms, Wi-Fi network facilities, innovative laboratories and a favourable environment to become top technocrats, professionals, entrepreneurs, leaders, researchers and responsible global citizens.

Infrastructure

Classroom

A comfortable and pleasing environment is what we provide our students with as we believe it seriously impacts learning and productivity. The classroom provides each student with a safe knowledge space, which leads the students to spend their time comfortably and get the most from their studies. The campus has aesthetically spread AC classrooms, which are vast and well-ventilated with natural and artificial lighting.

Architecture Studio Room

The studio room at the Architecture campus is very spacious, well-ventilated and air-conditioned. We realize that architecture studios are unlike regular classrooms and we have made sure that each student has their studio table in the studio to work on their project.

Knowledge Centre – Library

A rich collection of books are made accessible to the students to cultivate good reading habits. Each school has its own vast Knowledge Centre. Our Knowledge Centre provides relevant, authoritative and up-to-date information for our students. SAL Library holds a series of books and journals and provides access to electronic journals and databases, CDs-DVDs, online videos, lectures and much more.

Library Centre caters with

- E-Resource Library with computer systems with the latest configuration for online exploration.
- Linked with other libraries and resource centres to regain information globally.
- Separate study rooms and discussion rooms.

Computer Centre

All the Institutes boast of a well-equipped computer laboratory with the latest computers with advanced configurations. All the computer laboratories are connected through the LAN system with a server and are internet enabled. The campus uses a fibre backbone and firewall enabled network for reliable and safe data.

Language Laboratory

With audiovisual installation, a language lab is used to aid in English language teaching at each institute. A digital language lab helps the students to learn English and Communication.

Facilities

Seminar Room, Conference Room and Auditorium

To maintain the flow of the knowledge and achieve greater height, the organization conducts seminars and conferences. Each institution has an exclusive spacious seminar hall, auditorium and conference room for the students.

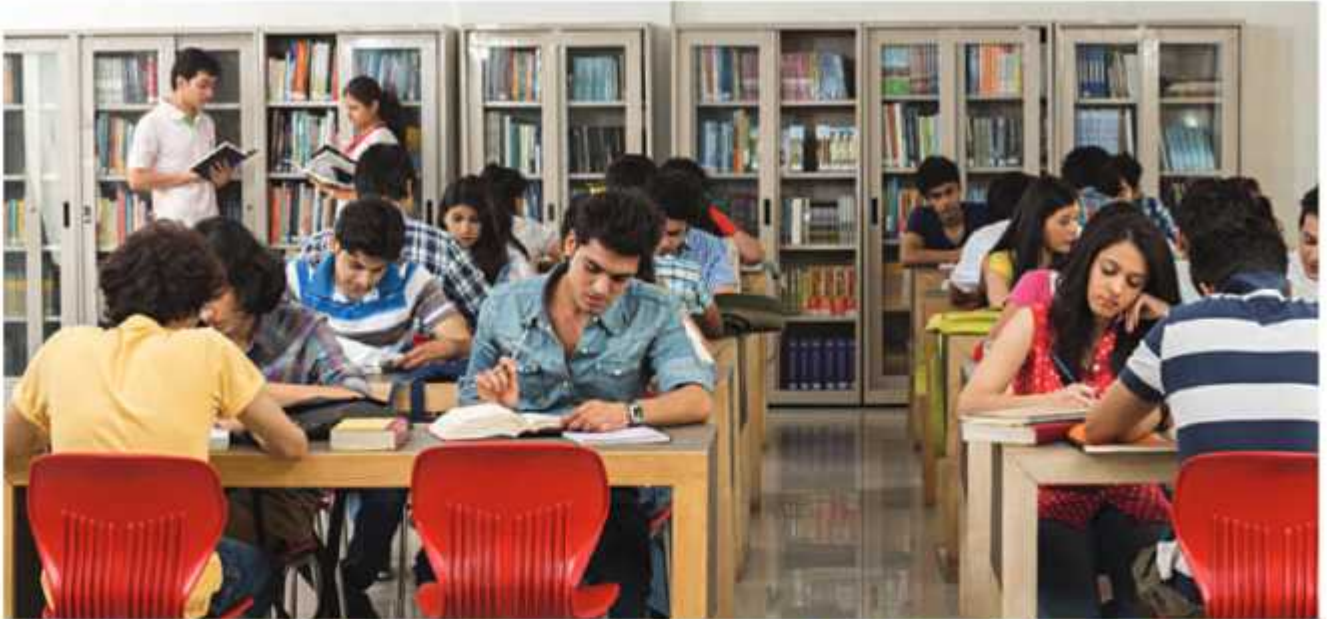

Gym

SAL Institute does not just believe in the cognitive development, but also the physical development of its students. The Gym is specifically designed for students to strive and be physically fit and active so that they can pursue their dreams with vigour.

Cafeteria

A modern cafeteria is created, which provides hygienic & wholesome food, snacks and beverages for the students. The cafeteria is pleasingly laid out and offers students an eco-friendly atmosphere to relax while deliberating on their academic challenges and learn informally.

Innovate & Learn with Practical Learning

SAL Education believes in enhancing a student's cognitive development by engaging them in practical learning sessions. Creative thinking is encouraged through various teaching techniques so that the students can push the envelope and better themselves.

Architectural Study Trips/Visits

International and Regional Field Trips are organized continuously for the Architecture Students. The study tours are among the most active part of the study at the Architecture school. The Architecture field trips allow future architects to visit national and international cities of significance and study history and contemporary architecture.

List of field / Countries visited

- Amsterdam, Netherlands.
- Auroville, Pondicherry, India.
- Bhutan.
- Japan.
- Prague, Czech Republic.
- Spain.
- Venice, Italy.

Laboratories & Workshop

SAL Education creates professionals and innovators for the future through exclusively sourced equipment available only at other top colleges/universities. The institutes' laboratories and workshop facilities ensure the students learn by doing things rather than just watching and listening.

Architecture Workshops

Workshops are an essential part of architectural studies. SAL School of Architecture Workshop plays an integral role in supporting learning through hands-on experimentation, exploration of materials, model making and prototyping. The workshop has dedicated facilities for working in wood, metal, ceramic, model-making and Fabrication-Laboratory. The workshop is equipped with state-of-the-art computer-controlled (CNC) machines, including a 3-axis milling machine, 3D printer, laser cutter, electric kilns, a wide array of traditional metal and woodworking machinery. Besides providing a huge well-equipped workshop, SAL School of Architecture also provides many practical workshops for experiential learning.

Experimental learning experiences through many workshops

- Poetry in bricks workshop
- Poetics of bamboo workshop
- Wall Negotiation workshop
- Monument conservation workshop
- Illusions : a visual game workshop

Architecture

Engineering Laboratories

Career & Placement Support

SAL Education boasts of the largest dedicated full-time Placement Cell on its campus, which ensures all the students get placed in the top companies at reputable positions. The team and the students make SAL Education the first choice of corporate from diverse geographical locations.

Unique features of Placement Cell

- The placement cell at the campus facilitates on-campus recruitment by giving a common platform to students seeking jobs.
- For the last seven years, 100% job-seeking of the campus's students were employed through the placement cell.
- SAL Education's consistent performance in providing a well-trained skilled workforce makes SAL Education the most preferred institution for recruiting Professional and Technical skilled workforce in the recruiter's books.
- The training, development and placement cell helps students get practical exposure to industrial and corporate firms through summer internships.
- Massive Placement Cell with spacious room and halls for training, pre-placement talks, workshops, seminars, meetings, personal interviews, group discussions and much more.
- Many personality developments, communication skills and aptitude training programs for the students.
- Fit Interviews, group discussion and mock sessions training program for students.
- Latest software development programs with projects for the students.
- Organise Industrial visits and Educational tours for the students.
- Frequently organises in-plant training, visits, executive training and induction program for professional technical and management students.
- MoU's with training organisations for upgrading the skills of the students.
- Collaboration and MoU with reputed MNC's for campus drive at national and state levels like ABG Ship Yard, Indian Navy, Maxis Rubber and many more.
- A fully equipped computer laboratory for online tests.

Awards Received By Placement Cell

- Placement Cell awarded & recognised for best placement record in Engineering in Gujarat by Times of India in the year 2018 & 2019.
- The campus was awarded and recognized as the best placements among Gujarat engineering institutes by the National Education Excellence awards in February 2017.
- The campus was awarded excellence in innovation and campus placement by 94.3 My FM at the annual Education Excellence Awards in 2017.
- The campus was awarded by the Innovation Council of Gujarat Technological University for innovative steps taken for placement and training.
- Placement Cell ranked as the second-best training and placement cell at the national level by Engineering Watch.
- Econs Profit Solutions awarded the campus in the Global Excellence Education Summit, New Delhi, for the highest package given to the students during campus placement.
- Placement Cell Ranked sixth amongst the top 10 ten institutions for excellent industrial exposure in India by Higher Education review in the year 2015.

Recruiters

Interact & Inculcate with Corporate World & Academicians

Industry and academia have long shared a mutually beneficial relationship and here at SAL Education, we respect and honour that relationship. We have a strong commitment to building stable and long-lasting relationships with the corporate world.

Industrial Visits

Industrial visits play an important role in educational learning, especially in the fields that our Institutes focus on. Students are taken for industry visits in and around Ahmedabad and other states. They interact with the company or industry people and have a first-hand experience of how a corporate entity works. Students are exposed to practical situations and events in companies, thereby honing their corporate skills and industry understanding.

Some Noteworthy Visits

Engineering

- Adani Port, Mundra, Kutch
- Adani Power Plant

Learning From Industry Stalwarts & Academicians

SAL Education is amongst India's top institutions to understand the importance of corporate tie-ups with academia. Industry stalwarts share their experience, observation during intensive workshops, guest lectures, or seminars with students on past and future business trends. Eminent humanitarians and philanthropists, industrialists, corporate leaders and business gurus are invited as guest speakers at the SAL Education. The presence of corporate leaders on the campus gives students an unparalleled outlook of the real world.

Eminent Personalities who shared their rich experiences at SAL Education.

- Ms. Sunita Williams (International Renowned Astronaut)
- Dr. Charles Savage (International Speaker & Motivational Leader)
- Dr. Shailesh Thaker (Business Management Guru)
- Mrs. Aabha Benarjee (Psychologist of Asian Games)
- Dr. Ashish Nanda (IIM-A Director)
- Mr. Harish Bijjor (Brand Guru & Leading Corporate Trainer of INC)
- Mr. Nayan Parikh (President IIM-A Aluminise)
- Prof. N.R Dave (Advisor PDPU)
- Mr. Sharad Shrimali (Head- Strategy & Planning, ABG Cement)
- Mr. C.M. Maheshwari (CMD - Fariti Enterprises)
- Mr. Snehal Desai (GM- Strategy Sources, Adani)
- Mr. Param Shah (Director of FICCI, Gujarat)
- Prof. Walter Unterrainer (Architect, Educator, Lecturer and Researcher)
- Prof. (Dr.) Thomas Mical (Architect)

Life Beyond Academics

Sports

SAL Education has a huge ground for different sports like cricket, football, basketball, volleyball, kabbadi, lawn tennis etc as well as it promotes indoor games like chess, table tennis, carrom etc. It is proud to introduce the students to a dedicated Sports Coach to guide the athletes to develop and enhance their sports abilities. Intra and inter Sports competition is annually organized at SAL Education. In the annual sports competition, students of SAL Education participate in different sports.

We also organise GTU Sports competition.

Cultural Festival - PANACHE - Confluence of Talents

PANACHE means style and flamboyance and each part of the Panache festival reflects this. Panache is a yearly event intercollegiate cultural festival organized by the SAL Education students for the students of SAL Education. The festival serves all kinds of talents from all over the campus.

Glimpse from the Cultural Festival

- Panache - 2014, witness a mammoth performance by the impressive singer and celebrity Miss. Anushka Manchanda.
- In the Panache - 2016, SAL Education saw more than 6000 students at the impeccable singer Miss. Neha Kakkar's live performance.
- Students have the time of their life during the events.
- There are rows of events every year based on performing arts, literature, management, fine arts, gaming and much more.
- The festival is a bunch of memorable days that start with events during the days to talent night, guaranteeing that the atmosphere is always exciting and there is no dull minute.

Technical Festival

Technical Festival is a 2-day celebration where programs and workshops are conducted on the topic of Science and Technology. The Techfest is a grand event that organizes various competitions, exhibitions, lectures, workshops, etc so that there are more interactions and exchange of creative ideas and innovations. This event has been catching the eyes of many people in Ahmedabad, including the students, academia, corporates and the public.

Navaratri - Garba Festival

SAL Education celebrates the Garba event during the festival of Navaratri with more than 8000 students playing Garba at SAL on each day of the two-day celebration.

Annual Exhibition & Conclave

The SAL School of Architecture organizes an Annual Exhibition to showcase the architecture students' outstanding work over the year.

Design projects of students are exhibited in the classrooms, studios and seminar halls. Visitors have the chance to view an exhibit by students, which includes models, drawings, video presentations and installation.

Engineering Students

Krunal Desai (Asahi India Gas Ltd.)
SCE – Mechanical (2015-2019)

My graduation journey at SAL College of Engineering has been enriching, interesting and awe-inspiring. Choosing SAL for my education has been the best decision I've made. I gained friendships and experiences that added a different perspective to my life. I feel lucky to be learning under such capable and accomplished mentors. Their motivation encouraged me to face risks and learn new things. I will always be thankful to SAL College Professors and my mentor Prof. Bhavik Padhiyar for making me the person I am today.

Vishal Patani (Wipro Technologies)
SCE – Computer (2015-2019)

SAL College of Engineering along with the Placement and Training Cell pushed me and my career with an absolute blast-off. I was affectionately guided with the knowledge that one requires when they are about to enter the corporate world. They supported me through every step. It was thanks to their preparation that I could properly sit for an interview and get my call letter from my dream company, Wipro. I am grateful to SAL College for its contribution to my life and helping me start on a perfect note.

Jagruti Koshti (LG Electronics)
SALITER – Electronics and Communications

My sincere appreciation & gratitude to the Training & Placement Department and all staff members of SAL Institute of Technology & Engineering Research for their efforts in imparting quality knowledge in technical and aptitude training. I am very grateful to them for pushing me and motivating me to grab my first ever opportunity for placement. Thank you all very much.

Maulik Mistry (Bosch Rexroth (India) Private Limited)
SALITER – Mechanical (2016-2019)

SAL has great infrastructure and efficient management. The guidance provided by the faculty members is invaluable. Our recruitment officer Mrs. Simple makes sure that we get the best job offers so that our future is secured. I am very thankful to them for sincerely helping me grab the best job opportunity.

Yash Patel (PCB Planet (India) Private Limited)
SALITER – Electrical

My college life has contributed to my growth as a person. This would have not been possible without the active participation of my enthusiastic professors who are masters of their field. SAL College is very helpful when it comes to getting placements. Many companies visit us and provide placements to a lot of students. The faculty is also encouraging and supportive throughout our journey. I will always cherish the feeling of studying at SAL Institute. The institute focuses on career enhancements along with overall skill development and placement. Thank you SAL for giving me the best years of my life.

Chandra Patel (Deedy Chemicals Pvt. Ltd.)
SETI – Chemical

I completed my Chemical Engineering at SAL Education. I really enjoyed my student life. The best part about the campus is its environment, infrastructure and the location that adds more meaning to every student's life. Management of SAL Education is extremely helpful when it comes to enriching a student's career. I am placed in a chemical company and this opportunity was provided to me by SAL placement office. I am really blessed to be a part of such an amazing institute.

Hemangi Kinger (TCS)
SCE – Computer

SAL has great infrastructure and efficient management. The guidance provided by the faculty members is invaluable. Our recruitment officer Mrs. Simple makes it her responsibility to get the best job offers for us so that our future is secured. I am very grateful to them for sincerely helping me grab the best job opportunity.

Ashish Kohli (Marine Power International FZC – Dubai)
SALITER – Mechanical

Nothing is better than smoothly transitioning from the studying phase into an working phase. I am thankful to our Placement Officer for providing such a wonderful opportunity of getting placed in a Dubai-based company. I would like to thank our faculties and our placement coordinators for seeding confidence and motivation. I also appreciate the efforts put in by the placement team. SAL truly helped in boosting my career and providing me with an opportunity to work with an international company.

Pharmacy Students

Aakash Mehta (New Zealand – Chevalier Auckland)
SALIP (2013-2017)

My valediction passage at SAL Institute of Pharmacy has been motivating and splendid. Choosing SAL was one of the best choices I ever made. The institute helped me gain perspective and skills which added to my outlook and attitude. The professors who taught us had amazing experiences to share which helped us know more about the corporate world. They encouraged me to take risks and constantly keep learning. I will always be thankful to my mentor Prof. K.N. Patel Sir for making me the person I am today.

Barot Jeet (Novartis – Clinical Data Management Department)
SALIP (2014-2018)

SAL Institute of Pharmacy provided a great jump-start to my career. The guidance that one needs when they are about to enter the corporate sector, was brilliantly shared with us! Right from preparing us with how to crack interviews to providing us with ample placement offers... SAL has served us our future on a silver platter. Thanks to their support, I landed a job in Novartis.

Poonam Burungale
SALIP (2012-2016)

I sincerely applaud and appreciate the efforts of the Department and the staff of SAL Institute of Pharmacy. From imparting quality education to providing practical and aptitude training, SAL has given us everything that would help us get our dream job. The working atmosphere is wonderful and inspiring. I am grateful to SAL for giving me the best four years of my life where I could mould myself into a better human being.

Francy Dholakia
SALIP (2015-2019)

The opportunities I have got at SAL remain unparalleled. At every step, I have been fortunate to interact with a very motivated set of minds, be it my own batch-mates, faculty members or professionals. I believe that SAL Institute of Pharmacy inculcates leadership qualities that prepare us to go out in the world and become global leaders.

Management Students

Vrushank Jani (2011)

Milton Berle wonderfully quoted "If opportunity doesn't knock, build a door". I can proudly say that I have built a door to get placed during the toughest era of Covid. But without the support of a true mentor to guide you in the right direction, nothing can be concretely achieved. I am grateful for the support I received from SAL Institute of Management to build my career. After being placed in the world's leading Edu-Tech company, I truly believe that SALIM is not only working to spread education but also to nurture a student's career.

Ritu Antani (2011)

SAL is not just a place where students get a degree, but also an institute where visionaries and leaders are born! SAL has been that place where we learnt the valuable lessons of life. Right from the faculty members to our Principals, everyone helps in moulding us to face the real world. Another biggest advantage that SAL provides job placements to secure every student's future!

Architecture Students

**Viraj Bhavsar (E-city Projects Construction Pvt. Ltd.)
SAL School of Architecture (2014-2019)**

It was a great experience of learning new skills throughout my years spent in SAL School Of Architecture. The vision our Dean and professors was to establish and teach new skills which would help us in our future development. The introduction of architectural software at a very early stage helped us during the training period as it is the need of the hour in today's time. The institute has been very helpful throughout the course as it has helped me in shaping my future in this field.

**Abhishek Rupapara
(Masters of Architecture at University of Sydney – Australia)
SAL School of Architecture (2015-2020)**

My journey at SAL School of Architecture helped me channel my passion for Architecture in the right direction. Today I can stand firm in the real world with complete exposure to new design ideologies, practical knowledge with comprehensive design education. What I loved most was the flexible design-based workshops with numerous skills to choose from in accordance with my passion and abilities. Learning along with the professionals, who have been extremely friendly and supportive, nurtured our confidence and equipped us with capabilities to look upon our further education and start our professional journey.

Divya Patel

**(Masters Urban Design at Bartlett School of Architecture, UCL – London)
SAL School of Architecture (2014-2019)**

I am currently pursuing my Masters in Urban Design Course from UCL, London. The digital skills and knowledge gained during my undergraduate years opened up avenues to explore a new stream in urban design with computational digital design manifestation. SAL helped in building a strong foundation on which I was able to grow and learn more.

Devanshi Sandeep Shah

**(M.Arch at New York Institute of Technology – USA)
SAL School of Architecture (2014-2019)**

Being a student from the Foundation Batch (2014 Batch), I have seen the school prosper every year. While I was pursuing Undergraduate education at SAL School of Architecture, I was introduced to every possible challenge that might come across in the professional world. In addition to my internship included in the curriculum, I had an opportunity to seize an international internship at Norman Foster Foundation, Madrid, Spain with the help and support from the dedicated and highly educated faculty members. I am currently enrolled for my graduate degree at the New York Institute of Technology. On top of that, I have been enrolled as an intern at the Department of City Planning, New York City.

Aanal Sanghvi (Vastu Shilpa Consultants 'Sangath') SAL School of Architecture (2015-2020)

Learning from the best of mentors has always been an incomparable experience. They constantly encourage us to gain practical experience. The RSPs and workshops that we attended have definitely given us a different perspective. SAL has helped me grow as an architect and what I have learnt over the years has opened up many opportunities for me in the professional arena.

Parantap Patel

**(Masters of Architecture at The University of Sydney – Australia)
SAL School of Architecture (2015-2020)**

SAL school of Architecture caters to young creative minds and inspires them to make their mark. The faculty of Architecture has always believed in helping and guiding its students towards a better future. They don't just help us in reducing the burden of studies but also mould the syllabus to provide maximum hands-on experience through workshops, RSPs, market surveys and site visits. Thorough involvement of experienced professionals in our projects while evaluating our proposals helped us get a better understanding of the subject. Our classmates, seniors, friends and faculties became our colleagues and I believe that it was the best investment I made for my career.

In and Around Ahmedabad

The economic capital of Gujarat and one of the world's fastest growing cities, Ahmedabad provides a unique learning context. At SAL Education, we hope to make the most of this rich backdrop in our educational endeavours. Located on the banks of Sabarmati river, Ahmedabad is a peaceful city. Ahmedabad city is one of the largest city that produces cotton in the country. The city is declared as the world Heritage City by UNESCO in July 2017 and its Sabarmati Ashram of Mahatma Gandhi, Adalaj Vav (the step-well), Siddhi Sayyed's mosque, Corbusier's Ahmedabad Textile Manufacturing Association building are amongst some of the most historical structures of the nation.

The Campus location in the busy developed area and in its educational district, provides easy access to theatres, restaurants, museums, and much more. The city is youthful and cosmopolitan, with plenty to see and do.
