ISTE Student Chapter: GJ-051

ISTE Faculty Chapter: GU-076

Name of Institute: SAL Institute of Technology & Engineering Research, Ahmedabad

Date: 15/2/2024

This seminar was very informative & interesting for our students. After completion of seminar students were able to:

- Learn basic concept of Cyber Security.
- Basic Concepts of Hacking.
- Online Scamming and Protections.

About Workshop:

Speaker: (1) Akash Nishad
Founder & Director, Demmisto Tech

A detailed description and presentation on Cyber Security was delivered to all the students in the session.

Objective: Cyber Security

Cyber security is one of the most pressing issues affecting businesses and consumers. Year after year, the number of cyber attacks, malware, ransomware, data theft, fraud, and identity theft continue to rise. One of the only positives of this is that more people than ever are interested in learning how to protect themselves and their businesses from cybercrime.

The course aims to expose students to the basic concepts of cyber security.
The students also learned how can be protective from cyber crime.

Topics covered:

- What is hacking and techniques in Hacking
- Various Terminologies of cyber security
- How to access various ports
- Anonymous Browsing
- Cyber Attack Countermeasures
- Real-Time Cyber Threat Detection and Mitigation
