Report of

Expert talk on DARK WEB
Under ISTE Chapter-SAL EDUCATION

Institutional Membership No. : IM-1746

ISTE Student Chapter: GJ-051

ISTE Faculty Chapter: GU-076

Name of Institute: SAL Institute of Technology & Engineering Research, Ahmedabad

Date: 20/12/24

The session on **"Dark web"** was conducted by the esteemed speaker **Dr. Khyati Rami**, Head of Computer Applications, Sal Institute of Technology and Engineering Research, in the presence of our 35 respected faculties. The dark web, a hidden segment of the internet accessed through specialized tools like Tor or I2P, remains a hub for both legitimate privacy-focused communities and a wide array of illegal activities. It provides a level of anonymity that appeals to cybercriminals, activists, and privacy-conscious individuals. While some view it as a necessary platform for privacy, especially in oppressive regimes, it is also a breeding ground for cybercrime, illicit trade, and other illegal activities. This report outlines current trends, emerging threats, notable marketplaces, and enforcement efforts within the dark web ecosystem.

Topics covered:
The main objectives of an FDP are as follows:
1. Illegal Activities:
2. Marketplaces and Forums: .
3. Cyber security Threats:
4. Law Enforcement and Government Actions:
5. Emerging Threats and Trends:
6. Impact on Businesses and Consumers:
