The National Education Policy, 2020 was released by the Union Cabinet on July 29, 2020.

The fundamental principles of the National Education Policy are to identify and foster the unique capabilities of each student by promoting creativity and critical thinking, to encourage logical decision-making and innovation.

It also facilitates extensive use of technology in teaching and learning, removing language barriers and educational planning and management.

It encourages innovation and out-of-the-box ideas through autonomy, good governance, and empowerment and also promotes outstanding research as a requisite for outstanding education and deployment.

The vision of the policy is to improve the quality of education by giving an equal space to creativity and innovation and transform India into a vibrant knowledge society.

SAL CE/IT Department had organized an Orientation Session on “National Education Policy-2020” taking steps towards achieving the vision of Government of India.
